***Election/Restrictions***

Applicant's election of Group II in Paper No. 5 is acknowledged. Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)).

***Claim Rejections - 35 USC § 112***

Claim 14 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The term "conventional" renders the metes and bounds of the claim unclear. It may be simply deleted.

***Allowable Subject Matter***

Claims 10-13, 15-20 are allowed. Claim 14 is allowable over the prior art.

Claim 14 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

The following is a statement of reasons for the indication of allowable subject matter: the prior art does not teach or suggest a method for performing a finishing lapping process to a magnetic head, comprising:

dispensing lapping media onto an interface surface of a compliant pad;

engaging the interface surface to the surface of a head outside a region comprising magnetic transducers defining a head gap; and

moving the pad over the head in a direction parallel to the head gap while using a head rail to guide the pad, as in the context of claim 10.

The closest prior art, Biskeborn 5603156, discloses a method with lapping with the lapping surface having a groove formed in it for guiding. There is no suggestion to use the head rails to guide the pad. Jordan 5940956, discloses a method that uses a compliant pad, but there is no suggestion to use the head rails to guide the pad.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
